

SHOP CONNECT

From SolutionsX

Shop Connect is fully integrated with SYSPRO ERP and provides dynamic views of shop dispatch and production reports. Shop Connect provides the ability to Sort, Filter, Consolidate, Color-Code, and create Custom Expressions, all in a user friendly point and click web-interface.

Shop Connect is real-time shop control dispatch that can also be merged with any SYSPRO ERP field, report, and/or other manufacturing database. This provides operators with up-to-date and relevant data to run production.

Customize your Dispatch to highlight areas of concern like material shortages, priority jobs, print revisions, or ECNs; almost limitless options.

Shop Connect also has add-ons for clocking on/off jobs, printing paperwork and CAD drawings, performing transactions within SYSPRO ERP and pulling data from any pre-existing database.

Key Features:

- Ties to Dispatch, Resource Planning, and Scheduling data
- Color Code and Icon Driven Grid
- Limitless Formatting Options
- Custom Expressions
- Filter, Sort, View all with graphical interface
- Customizable Views

Shop Connect will help you:

- Keep people working more and documenting less
- Eliminate dispatch paperwork and job paperwork
- Reduce expediting and tracking jobs
- Save time monitoring production
- Manage by exception
- Speed manufacturing and order fulfillment

Add-On Options:

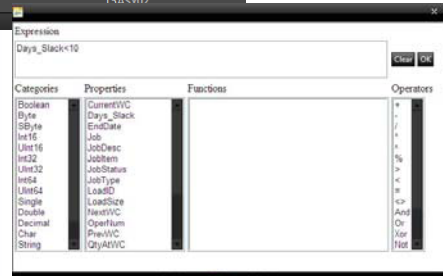

- View Drawings and Documents
- Print Drawings and Job Paperwork
- Production Reporting
- Clock In/Out
- Tie to other External Data
- User/Operator Notes

Formatting and highlights for visual management

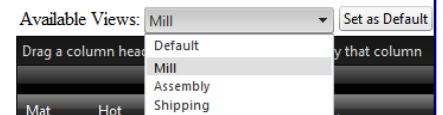

Drag a column header and drop it here to group by that column
